SUBSCRIPTION OF ACCESS MEDICINE DATABASE

This is to inform all that NML under ERMED e-journal consortium has provided the access of McGraw Hill's **Access Medicine Database** for the year 2023. The Access Medicine database is the collection of world famous renowned e-books i.e. *Harrison's Principles of Internal Medicine, Current Medical Diagnosis and Treatment, Schwartz's principles of Surgery, Adam's Principles of Neurology, Williams Gynaecology, Williams Obstetrics, Basic and Clinical Pharmacology etc.* which are very useful for UGs as well as PGs. The complete list of e-books with URL can be accessed from <https://accessmedicine.mhmedical.com/>

The database covers almost all the specialities, which includes 160+ Book titles, 2900+ Videos, audio & multimedia resources, 259,000 Images, 2000+ Clinical Cases, 600+ Infographics, 130+ Audio podcasts, 37,900+ self-assessment questions, Board & USMLE reviews, 7000+ patient education guides, etc. In addition, the database has narrated flash based animations and videos covering Obstetrics and Gynaecology, Drug Interaction, Cardiac Imaging, Heart disease, Emergency procedures, etc. The users can view the overview of Access medicine database by visiting <https://www.accessusercenter.com/videos/accessmedicine-overview-video-c85154fd-841a-475e-8250-4ae21b11ca24> . The users can also create a separate profile inside Access medicine through "My Access" and save all the data.

The Access Medicine Database is already configured on the static IPs of our institution can be accessed from any computer system connected to the Institution/Hospital network further it can also be accessed remotely via UCMS eLibrary Web platform/Mobile Apps.

For any queries please contact the undersigned.
